

**BlueCross BlueShield  
of Oklahoma**

As you may have heard in media reports, Premera Blue Cross (“Premera”) publicly disclosed that cyber attackers gained unauthorized access to a data base that stores member information. Premera is taking this issue very seriously and is working with the FBI on investigating the attack. Blue Cross and Blue Shield of Oklahoma (“BCBSOK”) is neither owned nor operated by Premera. Premera is a separate company that operates in Washington and Alaska. BCBSOK works with Premera to administer certain aspects of your health care benefit; you may have received health care services in one of these states which is why your information was in their system.

The privacy and security of our member’s information is a top priority at BCBSOK. We continue to safeguard your personal information through robust privacy and security measures.

The following is a copy of the letter that the President and CEO of Premera will be sending to individuals associated with BCBSOK that were affected by this incident.

Dear Member:

I am writing to inform you that Premera Blue Cross (“Premera”) was the target of a sophisticated cyberattack, and that some of your personal information may have been accessed by the attackers. As part of our investigation, we notified the FBI and are coordinating with their own investigation into this attack.

We at Premera take this issue seriously and regret the concern it may cause. I’m writing to provide you information on the steps we are taking to protect you and your information moving forward.

### **What happened?**

On January 29, 2015, we discovered that cyberattackers had executed a sophisticated attack to gain unauthorized access to our Information Technology (IT) systems. Our investigation further revealed that the initial attack occurred on May 5, 2014. We worked closely with Mandiant, one of the world’s leading cybersecurity firms, to conduct our investigation and to remove the infection created by the attack on our IT systems.

Our investigation determined that the attackers may have gained unauthorized access to your information, which could include your name, address, telephone number, date of birth, member identification number, Social Security number if it is part of your member identification number or patient identifier, email address if you provided it to us, and claims information, including clinical information. The investigation has not determined that any such data was removed from our systems. We also have no evidence to date that such data has been used inappropriately.

## **Why does Premera have your information?**

We believe you have or had health plan coverage through another independent Blue Cross Blue Shield (BCBS) plan, and that you may have received services in Washington or Alaska at some point since 2002. Premera is a service provider in Washington and Alaska to BCBS plans across the country.

## **What is Premera doing to protect you?**

We recognize this issue can be frustrating and we are taking steps to protect you. We are providing protection and assistance to those affected by this cyberattack, including two years of free credit monitoring and identity theft protection services.

Specifically, we are providing you a free, two-year membership in Experian's® ProtectMyID® Alert to help detect possible misuse of your personal information and provide you with identity protection services focused on immediate identification and resolution of identity theft. ProtectMyID Alert is completely free to you and enrolling in this program will not hurt your credit score. Due to privacy laws, we are not able to enroll you directly. For more information on identity theft prevention and ProtectMyID Alert, including instructions on how to activate your free, two-year membership, please see the additional information provided in this letter.

We also recommend that you regularly review the Explanation of Benefits (EOB) statements your health insurer sends you. If you identify medical services listed on your EOB that you did not receive, please contact your health insurer immediately.

## **What has Premera done to prevent this from happening in the future?**

Along with steps we took to cleanse our IT system of issues raised by this cyberattack, Premera is taking additional actions to strengthen and enhance the security of our IT systems moving forward.

## **Where can you get more information on this issue?**

You have two options to obtain more information, online or via phone. You can visit <http://www.premeraupdate.com> for more information. Or, call 1-800-768-5817, Monday through Friday, 5:00 a.m. to 8:00 p.m. Pacific Time (closed on U.S. observed holidays). TTY/TDD users should call 1-877-283-6562.

I want you to know that protecting your information is incredibly important to us at Premera, as is helping you through this situation with the information and support you need.

Sincerely,

Jeffrey Roe  
President & CEO  
Premera Blue Cross
